22 May 2003

Dear Sirs

Patents Act 1977: Search Report under Section 17(5)

I enclose two copies of my search report and a copy of the citations. There will be some delay before I can obtain the documents referred to on page 2 of your application. However, a similar document found covering a similar subject by the same authors has been included with this report, and from a study of this document, it is likely that the acknowledged prior art as mentioned in this specification will not be citable. I will contact you if this is found not to be the case.

Plurality of invention

I consider that your application relates to more than one invention as follows:

- (a) Claims 1 - 16: System and method characterised by having a nozzle with fluid injection means situated upstream of said nozzle exit.
- (b) Claims 17 - 21: System and method characterised by having a nozzle with means to disturb the boundary layer between the nozzle body and the fluid flow.
- (c) Claims 22 - 24: System for exhausting gas characterised by having a control system for controlling fluid injection means.

My search report relates to the first invention only. If you want any of the other inventions searched, you should file a separate Patents Form 9/77 for each invention.

[†]**Use of E-mail:** Please note that e-mail should be used for correspondence only.

Application No: GB 0226228.5

Publication

I estimate that, provided you have met all formal requirements, preparations for publication of your application will be completed soon after **30 March 2004**. You will then receive a letter informing you of completion and telling you the publication number and date of publication.

Amendment/withdrawal

If you wish to file amended claims for inclusion with the published application, or to withdraw the application to prevent publication, you must do so before the preparations for publication are completed. **No reminder will be issued.** If you write to the Office less than 3 weeks before the above completion date, please mark your letter prominently: "**URGENT - PUBLICATION IMMINENT**".

Yours faithfully

Robert Lynch
